

# Reliable Replacement for Most Ignition Applications

## Single Stage Gas Valve

### 1/2" x 1/2" Gas Valve

#### PRODUCT DETAILS

The 36H32-214 is a New Universal Replacement Gas Valve from White-Rodgers - for contractors that replace gas valves in residential and commercial gas-fired forced-air furnaces. 36H Series valves perform reliably in the field in many different applications.

The unique 36H32-214 gas valve competes well against the competition. Installation is fast and easy with the 1/2 x 1/2 inch NPT ports. It matches well with OEM gas valve types without the need to use reducer bushings - saving time on installations.
